Q4 Packaging Systems is a medium sized company dedicated to permanently searching for the best and most innovative solutions for Flexible packaging. Today Q4, s team is proud of its achievements in its relatively short history, in becoming suppliers to major companies in the Fresh produce, Meat, Bakery, Medical and other sectors.

Q4 Packaging has some of today's latest technology to manufacture its extensive range of packaging. Multi Colour printing, specialist coatings, laminates, Macro, Needle, Gas and laser Perforation.

Q4, s success has been built on a simple philosophy, individual attention to customers specific needs backed up by an experienced and committed team from sales through to production, enabling Q4 to ensure a first class product delivered to specification.

Personalization, technical specifications, quality and efficient logistics service are the key issues that Q4 has exploited to become a supplier to some of the main companies in the Fresh produce, Meat, Bakery and medical sectors.
