Perforated Tear Strips for Packaging Films

Consumers love easy-to-open tear-strips. Q4’s precision cut tear strip allow small or large flexible packages to be opened in one quick motion.

Such packages often contain fresh produce, Bread, etc. Typically, knives, scissors, or other sharp instruments are used, which may result in injury, spillage, and waste.

The easy-open strip has been designed for convenience and quick access to the contents, even with wet hands. Q4’s tear strip is ideal for OPP, PE and most other film types.

Applications for flow pack machinery:
Bakery Products, Multi-pack packaging,
Airline packaging, Fruit & Vegetables,
Promotion Packaging Etc etc...
